# Active Spaces

## Workshop Summary:

This workshop will allow the attendee to learn how to develop their playgrounds into fun social and creative play environments. The course will discuss the value of the 'informal curriculum' and the importance of the development of the children's cognitive, social, and physical development through structured play. We will explore and try a range of games and activities using a variety of line markings, with and without play equipment; playground zoning and wet weather activities. The course will also explore the role of the adult in the playground with the opportunity to discuss and share what works well/ not so well in your playground.

## Who:

Teachers, Teaching Assistants, Lunchtime Supervisors, Parent Volunteers

## Outcomes:

By the end of the workshop, the attendee should be able to:

- Use the space outside in a creative and fun way
- The role of the adult in the playground
- Understand the importance of the Informal Curriculum
- Try a range of games and fun activities to introduce into the playground.
- Use playground zoning and markings to optimise play
- Wet weather activities

Duration 2.5hours
